- Faster, better and damage free cleaning
- Increased distribution of ultrasound energy
- Improved cavitation
- Simple and easy-to-read controls
- High working frequency
- Low noise levels
- High power ultrasound generators
- Wide choice of models with 3 to 90 liters capacity
- Heating temperature and cleaning time control by microprocessor

Ultrasonic Cleaning System

Ultrasonic cleaning is a safe, efficient and modern procedure which ensures perfect cleaning. It can remove even the most tenacious deposits, in the shortest time possible. Ultrasonic cleaning greatly reduces the risk of cross - contamination and infection that can occur with manual cleaning. The SONICA® ultrasonic cleaners are constructed of advanced electronic components and are available in various models. Cleaning times and temperatures are controlled electronically by a microprocessor. Waterproof control panel.

The SONICA® ultrasonic serves as standard equipment in dental surgeries, hospitals, tattoo and piercing studio's, chemical laboratories, manufacturing industries, the optical industry, jewellery industry, defence industry and others.

- The 2200 - 5300 models are offered with 4 control options: M, MH ETH and EP.
- The 45L - 90L models are offered only with the EP control options.

- Ultrasonic cleaner M models with manual timer
- Ultrasonic cleaner MH models with manual timer, heater and thermostat 60°C
- Ultrasonic cleaner ETH models with timer and heating electronic control 5; 10; 15 min. 40°C; 50°C; 60°C - liquid drain
- Ultrasonic Cleaner EP models with digital control, degas, timer, heating programmables and liquid drain

For ultrasonic cleaning, instrument pre soak and evacuation systems

- Two tablets added to warm water makes 4 Liters ultrasonic / enzymatic solution
- Breaks down protein and organic matter such as blood, mucous and tissue
- Anti-corrosive to protect instruments
- Can be used with any ultrasonic cleaning system
- Cleans and deodorizes all evacuation equipment
- Non-toxic, bio-degradable, non-caustic
- Eliminates heavy handling, mixing and storage of liquid concentrates
- Available in 2 sizes: Box of 64 tablets or Box of 144 tablets.

accessories are available on request.

SONICA equipment complies with the following directives:
